

C53: Failure Policy Dropdown Options

Type	Priority	Estimate	References
Functional	High	None	None
Automation Type	Is Automated		
None	No		
Labels			

Preconditions

- Open EasyDMARC SPF Record Generator page
- SPF Record Generator form is visible

Test Data:

Failure policy options to verify:

- None
- Fail
- SoftFail
- Neutral

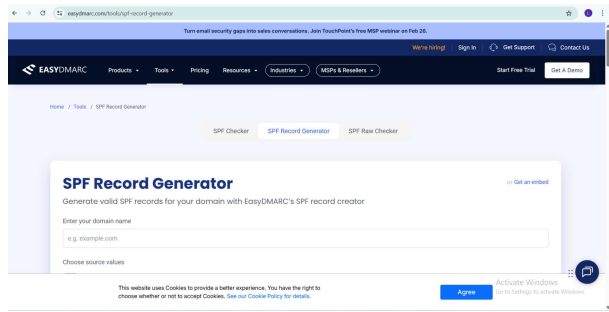

Steps

1 Open the EasyDMARC **SPF Record Generator** page.

**Expected Result:**

The SPF Record Generator page should open successfully and load without errors.

Screenshot:

2 Scroll to the **Select failure policy** dropdown.

**Expected Result:**

The **Select failure policy** dropdown should be displayed with the default value of '**SoftFail**'.

Screenshot:

3 Open the **Select failure policy** dropdown.

### Expected Result:

The dropdown should open successfully and display the following options:

- **None**
- **Fail**
- **SoftFail**
- **Neutral**

### Screenshot:

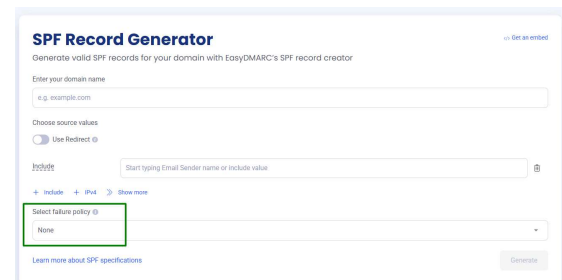

4 Select **None** from the dropdown.

### Expected Result:

**None** should be selected and displayed in the failure policy field.

### Screenshot:

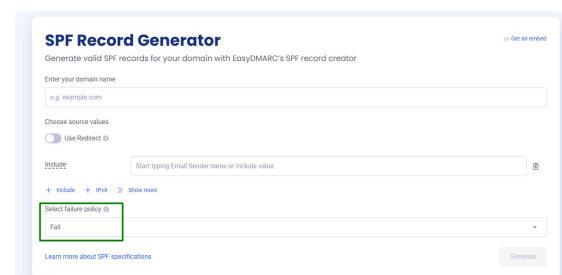

5 Select **Fail** from the dropdown.

### Expected Result:

**Fail** should be selected and displayed in the failure policy field.

### Screenshot:

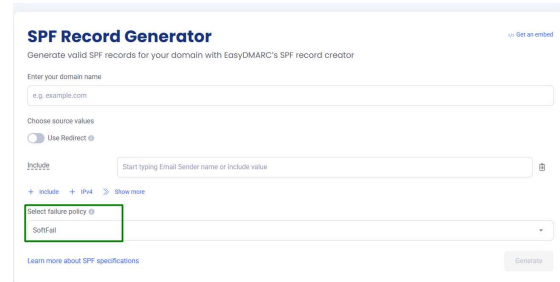

6 Select **SoftFail** from the dropdown.

### Expected Result:

**SoftFail** should be selected and displayed in the failure policy field.

### Screenshot:

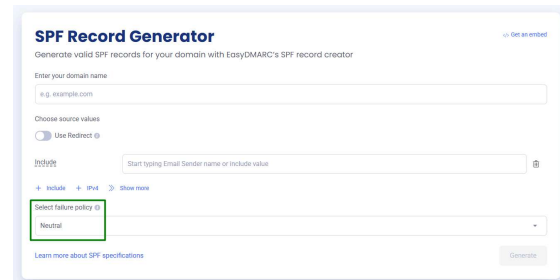

The screenshot shows the 'SPF Record Generator' interface. It includes a domain name input field, a 'Choose source values' section with a 'Use Redirect' toggle, and an 'Include' section with a text input. Below these is a 'Select failure policy' dropdown menu, which is highlighted with a green box and shows 'SoftFail' as the selected option. At the bottom, there is a 'Generate' button and a link to 'Learn more about SPF specifications'.

7 Select **Neutral** from the dropdown.

### Expected Result:

**Neutral** should be selected and displayed in the failure policy field.

### Screenshot:

The screenshot shows the 'SPF Record Generator' interface, similar to the previous one. The 'Select failure policy' dropdown menu is highlighted with a green box and shows 'Neutral' as the selected option. The 'Generate' button and the 'Learn more about SPF specifications' link are also visible at the bottom.
